LED VIDEO CURTAIN (PC standard)

LUV-LVC203 (P9) PC

USER'S MANUAL

THANK-YOU

Fist of all, we thank you for having chosen our products.

The LED VIDEO Curtain is a great and reliable device that can meet most of your requirements for entertainment markets. It can be just plug-and-play, and also can be controlled via standard DMX512 for sophisticated requirements.

All of our products are made on our business philosophy:

- we believe that satisfied customers are the key to a successful business and that controlled growth is the only path to sustained profitability.
- We believe that there is no point in supplying products that are substandard or inadequate. In the long run, it never pays.

You can always rely on us.

Thanks again!

Each box can supply power for 750pcs leds (P9), 350pcs leds (P20).

Operation

Maintenance

The LED PC Curtain is almost free of maintenance. If some of LEDs become dead, you just need to replace the dead ones with the spare LEDs attached in the package.

To replace the LEDs, first of all, unplug the device from the power supply. Unzip the cloth and find the dead LEDs. Hold the dead LED, and remove the clip from front side of the cloth. Change the LED, and put back the clip. Zip the curtain, and connect the device to the power supply.

To ensure the reliability of the LED PC curtain, it should be kept clean. Keep it away from oil and other stains.
